Areas of Greatest Need:

For the purpose of the Neighborhood Stabilization Program (NSP), the City of Mesa has identified the following census tracts and block groups as defining its ¿area of greatest need. ¿ Those include:422106 422105 420501 421901 421801 421201 422503 422104 422107 422002 422103 422102 422203 420901 420902 421101 421102 420800 422604 421202 421301 421302 422616 422502 421400 421501 421601 421502 422501 422001 421602 421700 422611 422302 422605 421802 421902 422609 422301 Mesa will limit the distribution and use of NSP funds to those census tracts and block groups shown above that have been identified as the areas of greatest need within the City of Mesa. In accordance with Section 2301(c)(2) of HERA, those areas have been targeted because they have the highest percentage of foreclosures, the highest percentage of homes financed by a subprime related loan, and are likely to face a significant rise in the rate of home foreclosures. Mesa will engage in the following activities within the above outlined census tracts, focusing in the 85204 zip code, as part of its NSP activities: ¿ Acquire and rehabilitate homes and residential properties that have been abandoned or foreclosed upon in order to sell, rent, or redevelop such homes and properties; ¿ Demolition of blighted structures ¿ Redevelop demolished or vacant properties ¿ Down payment assistance and Housing Counseling At least 25% of funds will be used for housing individuals and families whose incomes do not exceed 50% of area median income. To accomplish the projects as stated above, the City of Mesa will partner with community organizations. Potential community partners will be: Save the Family; Transitional Living Communities (TLC); A & A Cottages; Sustainable Home Ownership (SHO) Coalition; Marc Center; Community Bridges; and PTE Real Estate Group.

Distribution and and Uses of Funds:

In order to stabilize the neighborhoods and reduce blight, residential properties that have been foreclosed upon will need to be acquired, rehabilitated to a habitable condition and sold to individuals and families with a commitment to the neighborhood in which they live. These individuals and families will need affordable and sustainable homes, HUD certified housing counseling and education, and financial down payment assistance in order to accomplish the goal of homeownership that promotes a sense of neighborhood. The City of Mesa expects to demolish or convert 62 low and moderate income dwelling units as a result of NSP assisted activities. The City of Mesa expects to acquisition/rehab approximately 47 housing units for low, moderate and middle income individuals and households, and acquisition/demolition 15 housing structures as a result of NSP assisted activities. Commencement of the acquisition/rehab activity will commence upon notification from HUD of availability of NSP funds. However, the identification of potential properties has already begun. It is expected that all properties will be acquired and the rehabilitation will be in progress by June 30, 2010. The City of Mesa expects to make available a minimum of 20 units for households whose income does not exceed 50 percent of area median income.

Definitions and Descriptions:

(1) Definition of &ldquoblighted structure&rdquo in context of state or local law.

Blighted. Unsightly conditions including the accumulation of litter or debris; buildings or structures exhibiting holes, breaks, rot, crumbling, cracking, peeling, or rusting; landscaping that exhibits uncontrolled growth, lack of maintenance, damage, or is dead or decayed; and any similar conditions of disrepair and deterioration regardless of the condition of other properties in the vicinity or neighborhood.

(2) Definition of &ldquoaffordable rents.&rdquo Note: Grantees may use the definition they have adopted for their CDBG program but should review their existing definition to ensure compliance with NSP program &ndash specific requirements such as continued affordability.

Affordable Rents. Our NSP Affordable Rent Policy is intended to protect VLI and LMMH persons who are living in a housing project funded with NSP dollars. The policy shall benefit tenants whose gross household income, adjusted by family size, is less than 120% of median income according to income limits prepared by HUD for the Mesa area. When an NSP property is utilized, persons/households in occupancy of the building affected will be protected by this policy. The policy also requires that no less than 25% of the properties be filled by VLI persons/households at affordable rents.

It shall be the City of Mesa&rsquos practice to review the rent structure of projects requesting funding for housing related activities at the beginning of the process. A rent cap shall apply for any units occupied by LMMH and VLI households. The maximum allowable rent for VLI and LMMH households will be equal to the rent and utility amount being paid by the tenant occupies the unit. If there is a conversion of utility type or transfer of utility payment from owner to tenant, an adjustment will be made based on the schedule listed in the Section 8 Utility Allowance Schedule (in effect when the rent is calculated). The maximum allowable rent will be set for a period of one year after the final inspection for project completion by City of Mesa staff.

The tenant will be required to furnish rental information at the time of request for housing to enable City of Mesa staff to evaluate the impact of the project on rent levels. The project manager will submit currently charged rent amounts for all units in the housing project, utility types, whether the tenant or owner pays utilities, and the names of tenants. The project manager will also be required to secure from all occupied units, tenant information forms which provide income and demographic data about the occupant&rsquos household. Based upon this information, City of Mesa staff will determine if further investigation of tenant data is necessary such as verifying tenant income. Tenants who are affected by this policy will be notified in writing of the rent limitation and the approximate time the limitation will expire. Applicants will be required to sign a Rent Agreement stipulating the rent limitations.

(3) Describe how the grantee will ensure continued affordability for NSP assisted housing.

The City of Mesa will ensure continued affordability for NSP assisted housing by longterm monitoring. As outlined in all funding contracts and Declaration of Covenants, Conditions, and Restrictions (CC&

Definitions and Descriptions:

;Rs), rental property owners/managers are required to maintain complete files to comply with program reporting requirements and to make their records available to authorized agents of the local and federal government.

Desk reviews and onsite monitoring will provide an ongoing assessment to assure the rental units assisted with NSP funds are being utilized in accordance with all laws, regulations, and policies that govern the program. City of Mesa staff will be responsible for reviewing information received (or not received) from property owners/managers as it relates to laws, regulations, and policies.

Throughout the compliance period, property owners/managers must complete and submit an Annual Compliance Report. The report will update staff on the status of the NSP assisted units and property. Staff will schedule onsite monitoring visits annually.

The length of the compliance period is determined by the amount of NSP funds invested per unit in the project. The compliance period, also as the affordability period, is determined at the time of the initial commitment. The length of the compliance period is also outlined in the legal documentation filed on the property.

Activity NSP Per Unit Investment Minimum Affordability Period

Acq./Rehab Less than \$15,000 / 5 Years

Between \$15,000\$40,000 / 10 Years

More than \$40,000 / 15 Years

NewConstruction Regardless of Amount / 20 Years

The onsite monitoring visit is to determine compliance with tenant income eligibility requirements, maximum allowable rental rates, physical property standards, and affirmative fair marketing laws.

(4) Describe housing rehabilitation standards that will apply to NSP assisted activities.

Standards for NSP assisted activities will be held to the City of Mesa HousingRehabilitation Program standards. The Housing Rehabilitation Programstandards look at the general conditions, workmanship standards and materials standards.

All materials used shall be new, of good quality, and meet all applicable standards. Existing custom made items such as, but not limited to, kitchen cabinets, vanities, fixtures, builtins, and all other custom items, will be replaced with stock items. All items will either be replaced or repaired as determined by the City of Mesa Rehabilitation staff. All plumbing fixtures shall be replaced with water saving models.

All workmanship shall meet the minimum standards set forth in the City of Mesa Housing Rehabilitation Program rehabilitation standards guidelines, with priority given to the following: Gas lines and gas appliances to eliminate safety hazards; electrical system and hazards; heating and cooling systems; plumbing leaks, faulty fixtures and/or related items; roofing; lead based paint abatement; termite control; windows and doors; attic insulation; and other safety and health hazards, as determined by the City of Mesa Rehabilitation staff.

The complete City of Mesa Housing Rehabilitation Standards guidelines can be found on our website at http://www.mesaaz.gov/housing/pdf/materialsbooklet.pdf.

This amount will be made available through the Acquisition/Rehabilitation/Rental program for individuals or families at or below 50% of area median income. NSP will work closely with the Section 8 program to ensure compliance with this regulation.

Note: At least 25% of funds must be used for housing individuals and families whose incomes do not exceed 50 percent of area median income.

The number of dwelling units reasonably expected to be made available for households whose income does not exceed 50% of area median

income.

The City of Mesa expects to acquisition/rehab approximately 49 housing units for low, moderate and middle income individuals and households, and acquisition demotion and reconstruction of 5 housing structures as a result of NSP assisted activities.

Commencement of the acquisition/rehab activity will be upon notification from HUD of availability of NSP funds. However, the identification of potential properties has already begun. It is expected that all properties will be acquired and the rehabilitation will be in progress by June 30, 2010.

The City of Mesa expects to make available a minimum of 16 units for households whose income does not exceed 50 percent of area median income.

Activity Description:

The Acquisition Rehab rental activity will focus strategically on neighborhoods with a high percentage of residential properties of foreclosed or abandoned homes within the targeted census tracks. Properties will be acquired at a minimum of five percent (5%) below appraised value. However, the total portfolio average for purchases will be no less than ten percent (10%) below appraised value. The City of Mesa will acquire, inspect for rehabilitation, and lease the properties in coordination with the City of Mesa Housing Authority. It is anticipated that some of the rental properties will be an opportunity for home ownership for those renting. Because not all families will qualify for homeownership, this activity will be cause for a high rate of neighborhood stabilization for long term tenants. The acquisition/rehabilitation/rental activity will benefit income-qualified persons to meet the low income housing requirement for those below 50% of area median income. The acquisition/rehabilitation/rental activity will serve as workforce housing for individuals and families striving to one day become homeowners. Inspections will be made monthly to identify and repair any items necessary. This activity will adhere to the affordability period as outlined in this Amendment to the Action Plan.
